

2

Multiplication : Méthode per Gelosia

Complète les opérations de multiplication en te servant de la méthode per Gelosia.

$58 \times 3 = 174$

$17 \times 2 = \underline{\quad}$

$22 \times 8 = \underline{\quad}$

$24 \times 5 = \underline{\quad}$

$14 \times 9 = \underline{\quad}$

$16 \times 7 = \underline{\quad}$

$27 \times 3 = \underline{\quad}$

$19 \times 9 = \underline{\quad}$

$21 \times 7 = \underline{\quad}$

$20 \times 6 = \underline{\quad}$

$15 \times 5 = \underline{\quad}$

$29 \times 9 = \underline{\quad}$

2

Multiplication : Méthode per Gelosia

Complète les opérations de multiplication en te servant de la méthode per Gelosia.

$45 \times 7 = 315$

$78 \times 8 = \underline{\quad}$

$29 \times 9 = \underline{\quad}$

$17 \times 6 = \underline{\quad}$

$54 \times 7 = \underline{\quad}$

$75 \times 5 = \underline{\quad}$

$36 \times 4 = \underline{\quad}$

$68 \times 3 = \underline{\quad}$

$38 \times 7 = \underline{\quad}$

$95 \times 6 = \underline{\quad}$

$81 \times 9 = \underline{\quad}$

$57 \times 4 = \underline{\quad}$

2

Multiplication : Méthode per Gelosia

Complète les opérations de multiplication en te servant de la méthode per Gelosia.

$52 \times 44 = 2288$

$55 \times 50 = \underline{\hspace{2cm}}$

$67 \times 58 = \underline{\hspace{2cm}}$

$64 \times 42 = \underline{\hspace{2cm}}$

$52 \times 34 = \underline{\hspace{2cm}}$

$66 \times 21 = \underline{\hspace{2cm}}$

$57 \times 28 = \underline{\hspace{2cm}}$

$69 \times 25 = \underline{\hspace{2cm}}$

$51 \times 39 = \underline{\hspace{2cm}}$

2

Multiplication : Méthode per Gelosia

Complète les opérations de multiplication en te servant de la méthode per Gelosia.

$90 \times 25 = 2250$

$88 \times 72 = \underline{\hspace{2cm}}$

$94 \times 27 = \underline{\hspace{2cm}}$

$96 \times 67 = \underline{\hspace{2cm}}$

$89 \times 64 = \underline{\hspace{2cm}}$

$98 \times 65 = \underline{\hspace{2cm}}$

$84 \times 53 = \underline{\hspace{2cm}}$

$91 \times 70 = \underline{\hspace{2cm}}$

$87 \times 75 = \underline{\hspace{2cm}}$

3

Multiplication : Méthode per Gelosia

Complète les opérations de multiplication en te servant de la méthode per Gelosia.

$741 \times 6 = 4446$

$739 \times 2 = \underline{\quad}$

$835 \times 9 = \underline{\quad}$

$878 \times 7 = \underline{\quad}$

$775 \times 8 = \underline{\quad}$

$721 \times 4 = \underline{\quad}$

$832 \times 5 = \underline{\quad}$

$751 \times 6 = \underline{\quad}$

$777 \times 7 = \underline{\quad}$

$889 \times 3 = \underline{\quad}$

$711 \times 9 = \underline{\quad}$

$723 \times 8 = \underline{\quad}$

3

Multiplication : Méthode per Gelosia

Complète les opérations de multiplication en te servant de la méthode per Gelosia.

$119 \times 23 = 2737$

$254 \times 19 = \underline{\hspace{2cm}}$

$223 \times 37 = \underline{\hspace{2cm}}$

$197 \times 28 = \underline{\hspace{2cm}}$

$163 \times 93 = \underline{\hspace{2cm}}$

$152 \times 75 = \underline{\hspace{2cm}}$

$235 \times 71 = \underline{\hspace{2cm}}$

$269 \times 54 = \underline{\hspace{2cm}}$

$138 \times 99 = \underline{\hspace{2cm}}$

3

Multiplication : Méthode per Gelosia

Complète les opérations de multiplication en te servant de la méthode per Gelosia.

165 x 223 = 36 795

284 x 209 = _____

135 x 121 = _____

181 x 167 = _____

254 x 196 = _____

178 x 125 = _____

228 x 204 = _____

165 x 145 = _____

275 x 263 = _____
